Detailed Action

1. This action is in response to the amendment entered on November 5, 2009.

Drawings

2. Many of the drawings are hand lettered and are not of quality normally expected in a patent. Since there was a rejection in preliminary examination regarding the drawings and these were apparently good enough to satisfy that requirement they are not being rejected but the applicant may want to consider replacing them before paying the issue fee.

Reasons for Allowance

3. Claims 15, 16, 18, 19, 21, 22, and 24-26 are pending and are allowed. The following is a statement of reasons for the indication of allowable subject matter:

The closest prior art of record are Sullivan (U.S. Patent 7,337,141) which teaches a system for trading options. But it does not explicitly teach trading employee options with limitations on how and when they maybe traded.

Regarding claims 15, 16, 18, 19, 21 and 22

4. Sullivan taken individually or in combination with other prior art of record fails to teach or render obvious trading employee options with limitations on how and when they maybe traded.

Regarding all other claims:

Since claims 24-26 are dependent upon claims 15 or 18 or 19 respectively, these claims are also found allowable.

Regarding all allowed claims:

This statement is not intended to necessarily state all the reasons for allowance or all the details why the claims are allowed and has not been written to specifically or impliedly state that all the reasons for allowance are set forth (MPEP 1302.14).
